

REMARKS

Applicant has carefully reviewed the office communication mailed November 25, 2005. In that office communication, the Examiner indicated that the amendment submitted on September 7, 2005, was noncompliant because it included claims directed to nonelected species and requested that all claims directed to nonelected species be withdrawn.

In response, Applicant identifies claims 1-13, 18-33, 38-40, 42, 44, 46-47, 50, 51, 53, 55, and 57-59, as readable on species I. The remaining claims have been withdrawn from consideration. Further, claim 55 has been amended to correct a typographical error.

Applicant acknowledges and agrees with the Examiner that “stops” are first specifically called out for in the description of Figure 5. However, the embodiment of Figure 1 shows stops at both ends of the cam surface 132. Accordingly, claims referring to “stops” do read on Figure 1 and Applicant has not withdrawn these claims.

Applicant again notes that upon allowance of a generic claim, Applicant will be entitled to consideration of claims to additional species which include all the limitations of the allowed generic claim as provided by 37 CFR 1.141.

The Examiner is invited to telephone the undersigned if the Examiner believes it would be useful to advance prosecution.

Respectfully submitted,

Matthew J.S. Graham
